NIST's Manufacturing Engineering Laboratory (MEL) is developing standards that promote interoperability among members of the U.S. automotive supply chain. This study assesses the costs of imperfect interoperability to the U.S. automotive supply chain and describes the sources of these costs. This study estimates that imperfect interoperability imposes at least \$1 billion per year on the members of the U.S. automotive supply chain. By far, the greatest component of these costs is the resources devoted to repairing or reentering data files that are not usable for downstream applications.

Lists the MSRP and dealer invoice prices including the costs of standard vs. optional equipment, provides detailed specifications and reviews, offers advice for both buying and leasing, and explains how to save time and money when purchasing a truck, van, or sport utility vehicle. Original.

Entrepreneur Richard Sampson has a secret; a secret worth cheating, stealing, and even killing for. When his former business partners Jules and Mitch Spalding dig deeper into Sampson's private endeavors, they discover a world they never could have imagined. Slavery, torture, murder, and rape are part of Richard Sampson's past and present. For Jules, the desire to expose Sampson's operation is fueled by an intense need to bring an evil man to justice, until she discovers the truth about Richard Sampson. Eliana Gonzales and Stephanie Miller are two young girls caught in Sampson's Ring. They share different stories of the same horrific life, woven into this mysterious thriller that leads the reader through real world
