Researched and written in Japan with the full co-operation of the factory, here in definitive detail is the story of the Honda S2000 – a series of open two-seaters that built on the success of the NSX, helping the company justify its on-track exploits with a proper line of sporting machinery. Successful immediately, the S2000 models defended Honda’s honour on the tracks, but it was in the showrooms where the S2000 excelled. After a major face-lift, it was eventually killed off in 2009, but is as popular today as it ever was as a modern classic for enthusiasts.

“You can be lonely anywhere, but there is a particular flavor to the loneliness that comes from living in a city, surrounded by thousands of strangers. The Lonely City is a roving cultural history of urban loneliness, centered on the ultimate city: Manhattan, that teeming island of gneiss, concrete, and glass. What does it mean to be lonely? How do we live, if we’re not intimately involved with another human being? How do we connect with other people, particularly if our sexuality or physical body is considered deviant or damaged? Does technology draw us closer together or trap us behind screens? Olivia Laing explores these questions by travelling deep into the work and lives of some of the century’s most original artists, among them Andy Warhol, David Wojnarowicz, Edward Hopper, Henry Darger and Klaus Nomi. Part memoir, part biography, part dazzling work of cultural criticism, The Lonely City is not just a map, but a celebration of the state of loneliness. It’s a voyage out to a strange and sometimes lovely island, adrift from the larger continent of human experience, but visited by many - millions, say - of souls”-

This book is an exact replica of the original Grays Sports Almanac as seen in the 1989 film 'Back to the Future Part II' and contains 155 pages of sports statistics spanning 50 years. The cover has been painstakingly created in high-quality crisp graphics using a genuine prop which was used for filming as a reference to make this an exact replica. With 155 pages containing 50 years of sports statistics from 1950 to the year 2000, including American Football, Basketball, Horse Racing, Ice Hockey, Major League Baseball and others. This is the perfect book for anyone who appreciates the Back to the Future franchise, movie props, 80's movies or just sport in general.

When it became public that Osama bin Laden’s death was announced with the phrase “Geronimo, EKIA!” many Native people, including Geronimo’s descendants, were insulted to discover that the name of a Native patriot was used as a code name for a world-class terrorist. Geronimo descendant Harlyn Geronimo explained, “Obviously to equate Geronimo with Osama bin Laden is an unpardonable slander of Native America and its most famous leader.” The Militarization of Indian Country illuminates the historical context of these negative stereotypes, the long political and economic relationship between the military and Native America, and the environmental and social consequences. This book addresses the impact that the U.S. military has had on Native peoples, lands, and cultures. From the use of Native names to the outright poisoning of Native peoples for testing, the U.S. military’s exploitation of Indian country is unparalleled and ongoing.

How Native American history can guide us today: “Presents strong voices of old, old cultures bravely trying to make sense of an Earth in chaos.” —Whole Earth Written by a former Green Party vice-presidential candidate who was once listed among “America’s fifty most promising leaders under forty” by Time magazine, this thoughtful, in-depth account of Native struggles against environmental and cultural degradation features chapters on the Seminoles, the Anishinaabeg, the Innu, the Northern Cheyenne, and the Mohawks, among others. Filled with inspiring testimonies of struggles for survival, each page of this volume speaks forcefully for self-determination and community. “Moving and often beautiful prose.” —Ralph Nader “Thoroughly researched and convincingly written.” —Choice
