

## 36 2 Muscular System Biology Answers

Eventually, you will enormously discover a new experience and talent by spending more cash. nevertheless when? complete you say you will that you require to acquire those every needs later than having significantly cash? Why don't you try to acquire something basic in the beginning? That's something that will guide you to comprehend even more vis--vis the globe, experience, some places, later than history, amusement, and a lot more?

It is your no question own era to perform reviewing habit. in the midst of guides you could enjoy now is 36 2 muscular system biology answers below.

Modified by Nhan Pham.

## ~~36.2 — The Muscular System~~

The muscular system consists of all the muscles of the body. There are three types of muscle: skeletal muscle (which is attached to bones and enables voluntary body movements), cardiac muscle (which makes up the walls of the heart and makes it beat), and smooth muscle (which is found in the walls of internal organs and other internal structures and controls their movements).

~~Chapter 36 Biology The Muscular System Answers~~

Besides skeletal muscles, the muscular system also includes cardiac muscle - which  
makes up the walls of the heart - and smooth muscles, which control movement in  
other internal organs and structures. Muscle tissue is a soft tissue that makes up  
most of the tissues in the muscles of the human muscular system.
