Chargemaster also plans to install wireless charging units in the next two years to support the new cars and taxis that are expected to be coming to market with inductive charging. Chargemaster's introduction of more than 250 new Ultracharge units across the UK in 2017 has already commenced, with the rapid charge units installed across multiple Q-Park locations in London.

In emergency and disaster scenarios, it is vital to have a stable and effective infrastructure for relaying communication to the public. With the advent of new technologies, more options are available for enhancing communication

systems. *Multimedia Services and Applications in Mission Critical Communication Systems* is a comprehensive source of academic research on the challenges and solutions in creating stable mission critical systems and examines methods to improve system architecture and resources. Highlighting innovative perspectives on topics such as quality of service, performance metrics, and intrusion detection, this book is ideally designed for practitioners, professionals, researchers, graduate students, and academics interested in public safety communication systems.

This study is the first comprehensive analysis of its kind. It examines the Communist Party's evolving religious controls and citizens' responses to them, focusing on seven religious groups that account for 350 million believers: Chinese Buddhism, Taoism, Catholicism, Protestantism, Islam, Tibetan Buddhism, and Falun Gong.
