With this updated document, IRA and NCTE reaffirm their position that the primary purpose of assessment must be to improve teaching and learning for all students. Eleven core standards are presented and explained, and a helpful glossary makes this document suitable not only for educators but for parents, policymakers, school board members, and other stakeholders. Case studies of large-scale national tests and smaller scale classroom assessments (particularly in the context of RTI, or Response to Intervention) are used to highlight how assessments in use today do or do not meet the standards.

This new edition of one of the most respected and well-known texts in the field is a “ must-have ” resource for any teacher's library. It presents an interactive perspective on reading and writing ability and disability, with an emphasis on understanding and addressing learners' difficulties in relation to the instructional context. Completely updated throughout, *An Interactive Approach to the assessment of Reading and Writing Difficulty, 5/e* gives readers an extensive, in-depth, and up-to-date treatment of current research and best practices in reading assessment, diagnosis, and remediation.

This practical resource helps elementary classroom, remedial reading, and LD teachers make the best possible informal assessment of a child's specific reading, writing, and spelling strengths and weaknesses and attitudes toward reading. Written in easy-to-follow nontechnical language, it provides a multitude of tested informal assessment strategies and devices, such as kid watching, retellings, journals, IRIs, writing surveys, portfolios, think alouds and more - including over 200 reproducible assessment devices ready for immediate use! You'll find a detailed description of each informal assessment technique along with step-by-step procedures for its use and, wherever possible, one or more reproducible sample devices. Complete answer keys for each device are included with the directions. Among the unique topics covered are the innovative Individual Reading Inventory, San Diego Quick Assessment List, El Paso Phonics Survey, QAD Chart, Holistic scoring of writing and Reproducible devices for portfolio assessment. In short, *Alternative Assessment Techniques for Reading and Writing* offers a wealth of tested, ready-to-use informal assessment information and devices that should save the teacher a great deal of time and energy in making a useful assessment of any student's literacy ability!

Written from a strengths-based perspective, this is the first book to present a research-based, integrated review of reading, cognition, and oral language testing and assessment. The theoretical underpinnings of reading, language, and literacy are covered, as well as detailed information and administration tips on the myriad reading inventories and standardized tests that may be used in a reading

psychoeducational assessment. Unique in its inclusion of instruction on crafting professional evaluation reports to illuminate a student's strengths and weaknesses, this inviting book will enable school psychologists, reading specialists, and learning disabilities specialists to conduct effective interdisciplinary remedial recommendations and interventions.

Why do we assess reading? What do we assess when we assess reading? How, where, and when do we assess reading? Reading instruction and assessment expert Peter Afflerbach addresses these questions and much more in the 3rd edition of *Understanding and Using Reading Assessment, K–12*. Using the CURRV model to evaluate reading assessment methods—including reading inventories, teacher questioning, performance assessment, and high-stakes reading tests—Afflerbach considers the consequences and usefulness of each method, the roles and responsibilities of key stakeholders, and the reliability and validity of the assessments. In addition, he examines four important but often overlooked aspects of reading assessment:

- Assessment accommodation for English-language learners and students with special needs
- Assessment of noncognitive aspects of reading, such as motivation, engagement, self-concept, and self-efficacy
- The use of formative and summative assessment
- The importance of self-assessment in building reading independence

The book provides detailed case studies from all grade levels to illustrate reading assessment done well. It also includes 15 reproducible forms and checklists that teachers and administrators can use to optimize their reading assessment efforts. Students are expected to read increasingly complex texts and to complete increasingly complex reading-related tasks to demonstrate their growth as readers. This book offers teachers and administrators alike a clear path to helping students meet those expectations. This book is a co-publication of ASCD and ILA. New to the 3rd edition:

- New chapter “Formative and Summative Assessment”
- Three significantly revised chapters—Performance Assessment; Assessment Accommodation for English Learners and Students With Special Needs (“Accommodation and Reading Assessment” in 2nd edition); Assessing “the Other”: Important Noncognitive Aspects of Reading
- Fifteen reproducible and downloadable forms and checklists

A hands-on guide for anyone who teaches writing to students with learning disabilities. This valuable resource helps teachers who want to sharpen their skills in analyzing and teaching writing to students with learning disabilities. The classroom-tested, research-proven strategies offered in this book work with all struggling students who have difficulties with writing—even those who have not been classified as learning disabled. The book offers a review of basic skills—spelling, punctuation, and capitalization—and includes instructional strategies to help children who struggle with these basics. The authors provide numerous approaches for enhancing student performance in written expression. They explore the most common reasons students are reluctant to write and offer helpful suggestions for motivating them. Includes a much-needed guide for teaching and assessing writing skills with children with learning disabilities. Contains strategies for working with all students that struggle with writing. Offers classroom-tested strategies, helpful information, 100+ writing samples with guidelines for analysis, and handy progress-monitoring charts. Includes ideas for motivating reluctant writers. Mather is an expert in the field of learning disabilities and is the best-selling author of *Essentials of Woodcock-Johnson III Tests of Achievement Assessment*.

Anderson offers smart, ready-to-use ideas for assessment.

The assessment of language learners is having a growing impact in English language teaching and applied linguistics. A formal evaluation of students writing abilities is important for language teachers in order to assess the pedagogical needs of their students. While there has been a considerable body of work undertaken on assessing the writing abilities of native speakers, the issues surrounding the assessment of second language learners writing abilities are still emerging. At present, no one volume has explored these issues and their implications for language teaching practitioners wishing to evaluate their students writing. This book outlines in an accessible manner the major tenets of research in the field and provide language teachers with guidelines to design and develop suitable writing assessment tasks for their students.

Many English language learners (ELLs) require extra support to become successful writers. This book helps teachers understand the unique needs of ELLs and promote their achievement by adapting the effective instructional methods teachers already know. Engaging and accessible, the book features standards-based lesson planning ideas, examples of student work, and 15 reproducible worksheets, rubrics, and other useful materials. It describes ways to combine instruction in core skills with ample opportunities to write and revise in different genres. Invaluable guidance is provided for assessing ELLs' writing development at different grade levels and language proficiency levels.
