(Book). From the same "dream team" that created The Fender Stratocaster Chronicles (Vintage Guitar magazine's 2004 Book of the Year) comes this new publication covering the other side of Fender's legacy, the instrument amplifier. Revered as much as one's guitar, the Fender amplifier gets its due in this full-color, richly illustrated book. Features over 400 images, including legendary guitarists such as Eric Clapton, B.B. King, Neil Young, Pete Townshend, Stevie Ray Vaughan, Muddy Waters, and Dick Dale, and over 120 audio tracks that make terms and topics come alive.

"Since its official debut in early 1954, the Stratocaster, designed by Leo Fender, has proved to be poaibly the most popular electric guitar ever manufactured; quite a legend of its own! No other electric guitar has been so widely copied as the Stratocaster."--Amazon.com.

The guitar is more than a musical instrument. It is an archetype. In homage, Light Strings brings together two masters of their craft: photographer Ralph Gibson and former guitarist for the Police, Andy Summers. Gibson's enigmatic and sensuously elegant photographs are the visual counterpart to Summers' lyrical history and thoughtful exploration of the instrument's features. Together they create a unique poetic meditation on the guitar. Both artists pay attention to the form of the guitar and its relationship to the body; its curves echo the human figure, not only requiring it to be cradled to play it, but inviting a study of its own sumptuous anatomy. With over one hundred alluring images that capture the graceful details of the instrument, Light Strings is the book for every guitar player.
