This book systematically explains why some countries are democracies while others are not.

This book presents a systematic overview and assessment of the impacts of politics on the media, and of the media on politics, in authoritarian, transitional and democratic regimes in Russia, Spain, Hungary, Chile, Italy, Great Britain, Germany, Japan, the Netherlands, and the United States. Its analysis of the interactions between macro- and micro-level factors incorporates the disciplinary perspectives of political science, mass communications, sociology and social psychology. These essays show that media's effects on

liberalism politics are the product of often complex and contingent interactions among various causal factors, including media technologies, the structure of the media market, the legal and regulatory framework, the nature of basic political institutions, and the characteristics of individual citizens. The authors' conclusions challenge a number of conventional wisdoms concerning the political roles and effects of the mass media on regime support and change, on the political behavior of citizens, and on the quality of democracy.

First published in 1991. Routledge is an imprint of Taylor & Francis, an informa company.

In the early 1990s, Albania, arguably Europe's most closed

Download File PDF From Dictatorship To Democracy A Concept Framework For

and repressive state, began a startling transition out of forty years of self-imposed Communist isolation. Albanians who were not allowed to practice religion, travel abroad, wear jeans, or read “decadent” Western literature began to devour the outside world. They opened cafés, companies, and newspapers. Previously banned rock music blared in the streets. Modern Albania offers a vivid history of the Albanian Communist regime’s fall and the trials and tribulations that led the country to become the state it is today. The book provides an in-depth look at the Communists' last Politburo meetings and the first student revolts, the fall of the Stalinist regime, the outflows of refugees, the crash of the massive pyramid-loan schemes, the war in neighboring Kosovo, and Albania’s relationship with the United States. Fred Abrahams

weaves together personal experience from more than twenty years of work in Albania, interviews with key Albanians and foreigners who played a role in the country's politics since 1990—including former Politburo members, opposition leaders, intelligence agents, diplomats, and founders of the Kosovo Liberation Army—and a close examination of hundreds of previously secret government records from Albania and the United States. A rich, narratively-driven account, *Modern Albania* gives readers a front-row seat to the dramatic events of the last battle of Cold War Europe.

This book provides an in-depth analysis of neo-liberal and progressive economic reforms and policies implemented in Chile since the Pinochet dictatorship. The core thesis of the

to democracy up to the present day Tusell was a celebrated public figure and historian. During his lifetime he negotiated the return to Spain of Picasso's Guernica, was elected UCD councillor for Madrid, and became a respected media commentator before his untimely death in 2005 Includes a biography and political assessment of Francisco Franco Covers a number of pertinent topics, including fascism, isolationism, political opposition, economic development, decolonization, terrorism, foreign policy, and democracy Provides a context for understanding the continuing tensions between democracy and terrorism, including the effects of the 2004 Madrid Bombings

At the end of the twentieth century, many believed the story

Download File PDF From Dictatorship To Democracy A Concept Framework For

of European political development had come to an end. Modern democracy began in Europe, but for hundreds of years it competed with various forms of dictatorship. Now, though, the entire continent was in the democratic camp for the first time in history. But within a decade, this story had already begun to unravel. Some of the continent's newer democracies slid back towards dictatorship, while citizens in many of its older democracies began questioning democracy's functioning and even its legitimacy. And of course it is not merely in Europe where democracy is under siege. Across the globe the immense optimism accompanying the post-Cold War democratic wave has been replaced by pessimism. Many new democracies in Latin America, Africa, and Asia began "backsliding," while the Arab Spring quickly

turned into the Arab winter. The victory of Donald Trump led many to wonder if it represented a threat to the future of liberal democracy in the United States. Indeed, it is increasingly common today for leaders, intellectuals, commentators and others to claim that rather than democracy, some form dictatorship or illiberal democracy is the wave of the future. In *Democracy and Dictatorship in Europe*, Sheri Berman traces the long history of democracy in its cradle, Europe. She explains that in fact, just about every democratic wave in Europe initially failed, either collapsing in upon itself or succumbing to the forces of reaction. Yet even when democratic waves failed, there were always some achievements that lasted. Even the most virulently reactionary regimes could not suppress every element of

Download File PDF From Dictatorship To Democracy A Concept Framework For

liberalism progress. Panoramic in scope, Berman takes readers through two centuries of turmoil: revolution, fascism, civil war, and - finally -- the emergence of liberal democratic Europe in the postwar era. A magisterial retelling of modern European political history, *Democracy and Dictatorship in Europe* not only explains how democracy actually develops, but how we should interpret the current wave of illiberalism sweeping Europe and the rest of the world.

This book presents a new theory for why political regimes emerge, and why they subsequently survive or break down. It then analyzes the emergence, survival and fall of democracies and dictatorships in Latin America since 1900. Scott Mainwaring and Aníbal Pérez-Liñán argue for a

Download File PDF From Dictatorship To Democracy A Conceptual Framework For

liberal approach situated between long-term structural and cultural explanations and short-term explanations that look at the decisions of specific leaders. They focus on the political preferences of powerful actors - the degree to which they embrace democracy as an intrinsically desirable end and their policy radicalism - to explain regime outcomes. They also demonstrate that transnational forces and influences are crucial to understand regional waves of democratization. Based on extensive research into the political histories of all twenty Latin American countries, this book offers the first extended analysis of regime emergence, survival and failure for all of Latin America over a long period of time.
