We began by writing about how to become certified as an HVAC technician. With rules and certifications varying for each state, it was a challenging task. We had a few friends in other states help us out, but

For some states,
we had to dig
really deep to
find the
information
needed. Our
audience at the
time was very
happy with the
information we
provided. At
this point, we

When we started

The study guides
out there were
dense and had
much more
information than
