Logic Puzzles Introduction Mathematics isn't at all about memorizing formulas or doing procedures over and over. It's all about thinking logically, finding patterns and connections, and solving problems. A logic puzzle is a problem, challenge, or game that requires the player to use forms of critical thinking to arrive at a solution.

Kids love exploring new ways of solving problems, especially in fun and challenging puzzle formats. In *Math and Logic Puzzles That Make Kids Think!*, the author presents several variations on Sudoku—the most well-known type of logic puzzle—in an easy-to-use, exciting format perfect for any math classroom. These language-independent logic puzzles provide kids with great problems to stretch how they think and reason. Each puzzle variation utilizes some of the basic strategies of Sudoku puzzles, but each one also draws upon other areas of mathematics—ordering of numbers, properties of geometric shapes, basic operations, or enriched number sense. This book provides teachers with puzzles arranged by difficulty level that can be used to support and enhance students' mathematical investigations. It also provides a new and exciting context for the development of students' deductive reasoning skills, which can lay the foundation for further mathematical exploration. Grades 6-8

Kakuro (also known as "Cross Sums") is a logical puzzle, a mathematical equivalent of crosswords. The puzzle consists of a playing area of filled and empty cells similar to a crossword puzzle. Some black cells contain a diagonal slash from top left to bottom right with numbers in them, called "the clues." A number in the top right corner relates to an "across" clue and one in the bottom left a "down" clue. The object of a kakuro is to insert digits from 1 to 9 into the white cells to total the clue associated with it. However no digit can be duplicated in an entry. For example the total 6 you could have 1 and 5, 2 and 4 but not 3 and 3. ===== KEYWORDS / TAGS: math puzzles and brainteasers grades 3-5 - math puzzles for middle school - math puzzles for kids ages 8-10 - math puzzle for kids - math puzzle kids - 5th grade math puzzles - math puzzles grade 5 - 6th grade math puzzles - brain teasers for kids ages 10-12 - brain teasers for kids - brain teaser for kids - brain teaser games for teens - brain teaser kids - brain teaser 12 year old - brain teasers for kids ages 6-8 - brain teasers for kids ages 8-10 - math puzzle books for kids

numbers in some cells. The aim is to blacken some cells according to the rules.

"Math Bafflers" requires students to use creativity, critical thinking, and logical reasoning to perform a variety of operations and skills that align with state and national math standards. The book covers real-life situations requiring math skills, such as distance, liquid measures, money, time, weight, sequencing, comparison, age, area, and percentages, along with operations such as fractions, exponents, algebra, place value, and number lines. Students will make hypotheses, organize information, draw conclusions, and use syllogistic thinking. Teachers can feel confident that they are providing challenges and reinforcing important skills in a format that students enjoy! "Math Bafflers" builds essential critical thinking, analysis, and problem-solving skills; develops logical thinking in a fun format; uses relevant, real-life mathematical situations; and provides opportunities for differentiation.
