Mettler Toledo IND131 Flexible Control Options The ability to connect to a broad variety of fieldbus networks, and the internal discrete I/O provide a solution for gain-in-weight (filling), loss-in-weight (dosing) and level indication applications.

This second edition of Construction Contract Administration focuses specifically on the two main construction contracts in Australia: ABIC MW - 2003 major works contract and AS4000 -1997 General Conditions of Contract. Greg Goldfayl demystifies the jargon of contract forms and translates it into plain English, making the issues involved in contract administration accessible to readers without legal training.

Becoming an effective IT manager presents a host of challenges--from anticipating emerging technology to managing relationships with vendors, employees, and other managers. A good IT manager must also be a strong business leader. This book invites you to accompany new CIO Jim Barton to better understand the role of IT in your organization. You'll see Jim struggle through a challenging first year, handling (and fumbling) situations that, although fictional, are based on true events. You can read this book from beginning to end, or treat it as a series of cases. You can also skip around to address your most pressing needs. For example, need to learn about crisis management and security? Read chapters 10-12. You can formulate your own responses to a CIO's obstacles by reading the authors' regular "Reflection" questions. You'll turn to this book many times as you face IT-related issues in your own career.

It is Sylvia's sixteenth birthday, and her life as an adult is about to begin—not with the party she had been planning, but with a car accident and a broken leg. Behind the wheel is a talented young soccer player, just arrived from Buenos Aires and set for stardom on and off the field. As their destinies collide and a young romance is set in motion, across town, Sylvia's father and grandfather are finding their own lives suddenly derailed by a violent murder and a secret affair with a prostitute. Set against the maze of Madrid's congested and contested streets, Learning to Lose follows these four individuals as they swerve off course in unexpected directions. Each of them is dodging guilt and the fear of failure, but their shared search for happiness, love, purity, redemption, and, above all, a way to survive, forms a taut narrative web that binds the characters together. From one of Spain's most celebrated contemporary writers, Learning to Lose is a lucid and gripping view into the complexities of lives overturned and into the capriciousness of modern life, with its intoxicating highs and devastating lows.

The smartphone in your pocket can easily be turned into a high-tech spy tool and counter-surveillance device to rival anything that Ian Fleming's Q might have dreamt up. You can communicate secretly, browse the web anonymously, access the Deep Web and hidden networks, view banned content, download privately and continue using Twitter and Facebook if their services are ever blocked locally. Conversely, mobile devices are not secure unless you make them so. If somebody wants to know where you are at this precise moment, your smartphone will tell them - even if it is turned off. The push by the commercial world and more recently by law enforcement and surveillance agencies to monitor all we do has led to a counter-revolution. The Mobile Internet has evolved and so has its counter-surveillance tools. Rather like spies in a James Bond movie, mobile users have an array of digital tools to call upon, both to mask their identity and to provide real confidence that their correspondence, data and contacts are secure. There are smartphone apps that let you see in the dark or measure the height of a building. You can film and record without being rumbled; send emails, PMs and SMS that cannot be intercepted or read. You can even take over and control many public and private security cameras. Conrad Jaeger and Alan Pearce have written numerous books on cyber-security and all are available on Amazon.

Rusty is a quiet, imaginative and sensitive boy who lives with his grandparents in pre-Independence Dehra Dun. Though he is not the adventurous himself,

the strangest and most extraordinary things keep happening around him. The house in Dehra is full of strange creatures. Rusty has to deal with everything from his grandfather's pet python to the ever-inventive Uncle Ken. Visiting his father in wartime Java, Rusty narrowly escapes enemy bombardment, and survives a plane crash in the Arabian Sea. Back in India, he spends his time encountering a ghost in the garden and recreating his grandmother's youthful days from an old photograph. Then, something totally unexpected happens and Rusty is forced to leave Dehra, his future uncertain ... This volume of Rusty stories, the first in a series, traces Rusty's development from early childhood to his early teens and is a riveting read for younger and older children alike.

Venetia was very lonely after the death of her parents. So when her cousin Mary begged her to help to save her from a forced marriage, Venetia was ready. Mary was in love with another man and expecting his child. yet the Queen wanted her to marry the Earl of Mountwood at a moment's notice and go with him to India. A reckless impulse made Venetia promise to take Mary's place at the altar. She would worry about the consequences later. Lord Mountwood was handsome, but he was also haughty and autocratic, demanding instant obedience from his servants and his wife. When he discovered the trick Venetia had played on him he was furious. She had only her quick wits to protect her from his wrath. On the journey to India they quarreled and sparred, each getting the measure of the other, while the growing attraction between them became impossible to ignore. In India they travelled to the Northwest frontier, to a fort that was under constant attack by the Russians. And there, just as she and her husband discovered their love, they were caught up in danger that threatened to part them. How they overcame all the obstacles is told in this exciting and romantic novel by Barbara Cartland.

Aliya may not have inherited her family's patrician looks, but she is as much a prey to the legends of her family that stretch back to the days of Timur Lang. Aristocratic and eccentric-the clan has plenty of stories to tell, and secrets to hide. Like salt and saffron, which both flavor food but in slightly different ways, it is the small, subtle differences that cause the most trouble in Aliya's family. The family problems and scandals caused by these minute differences echo the history of the sub-continent and the story of Partition. A superb storyteller, Kamila Shamsie writes with warmth and gusto. Through the many anecdotes about Pakistani family life, she hints at the larger tale of a divided nation. Spanning the subcontinent from the Muslim invasions to the Partition, this is a magical novel about the shapes stories can take- turning into myths, appearing in history books and entering into our lives.

Russian Literature since 1991 is the first comprehensive, single-volume compendium of modern scholarship on post-Soviet Russian literature. The volume encompasses broad, complex and diverse sources of literary material - from ideological and historical novels to experimental prose and poetry, from nonfiction to drama. Written by an international team of leading experts on contemporary Russian literature and culture, it presents a broad panorama of genres in post-Soviet literature such as postmodernism, magical historicism, hyper-naturalism (in drama), and the new lyricism. At the same time, it offers close readings of the most prominent works published in Russia since the end of the Soviet regime and elimination of censorship. The collection highlights the interdisciplinary context of twenty-first-century Russian literature and can be widely used both for research and teaching by specialists in and beyond Russian studies, including those in post-Cold War and post-communist world history, literary theory, comparative literature and cultural studies.
