A Washington Post Book World Best Book of the Year Winner of the Israel Fishman-Stonewall Book Award for Nonfiction "Tender and amusing. . . . Doty brilliantly captures the qualities that make dogs endearing." -- The New Yorker When Mark Doty decides to adopt a dog as a companion for his dying partner, he brings home Beau, a large, malnourished golden retriever in need of loving care. Joining Arden, the black retriever, to complete their family, Beau bounds back into life. Before long, the two dogs become Doty's intimate companions, and eventually the very life force that keeps him from abandoning all hope during the darkest days. Dog Years is a poignant, intimate memoir interwoven with profound reflections on our feelings for animals and the lessons they teach us about living, love, and loss.

Here are quips and jokes for that vast half of humanity that is on the inevitable road to aging and knows that sharing laughter with friends is one of the best ways to live until you die. "Change loves me, defines and stalks me like a laser-guided smart bomb. It comes at me in all forms, suddenly and with enormous impact, from making shifts in work to having and raising a kid to buying a cabin on a distant mountaintop. Sometimes, change comes on four legs." In his popular and widely praised Running to the Mountain, Jon Katz wrote of the strength and support he found in the massive forms of his two yellow Labrador retrievers, Julius and Stanley. When the Labs were six and seven, a breeder who'd read his book contacted Katz to say she had a dog that was meant for him--a two-year-old border collie named Devon, well bred but high-strung and homeless. Katz already had a full canine complement, but instinct overruled reason, and soon thereafter he brought Devon home. A Dog Year: Twelve Months, Four Dogs, and Me is the story of how Devon and Jon--and Julius and Stanley--came to terms with each other. It shows how a man discovered a lot about himself through one dog (and then another) whose temperament seemed as different from his own as day is from night. It is a story of trust and understanding, of life and death, of continuity and change. It is by turns insightful, hilarious, and deeply moving. BONUS: This edition contains an excerpt from Jon Katz's Going Home.

'How Old Am I In Dog Years?'' is a joyous, snark-filled, and completely relatable collection of essays that skewer the foibles of ordinary events.

Boy meets dot-com, boy falls for dot-com, boy flees dot-com in horror. So goes one of the most perversely hilarious love stories you will ever read, one that blends tech culture, hero worship, cat litter, Albanian economics, venture capitalism, and free bagels into a surreal cocktail of delusion. In 1998, when Amazon.com went to temp agencies to recruit people, they gave them a simple directive: send us your freaks. Mike Daisey -- slacker, onetime aesthetics major, dilettante -- seemed perfect for the job. His ascension from lowly temp to customer service representative to business development hustler over the course of twenty-one dog years is the stuff of both dreams and nightmares. With lunatic precision, Daisey describes the lightless cube farms in which book orders were scrawled on Post-its while technicians struggled to bring computers back online; the fourteen-hour days fueled by caffeine, fanaticism, and illicit day-trading from office desks made from doors; his strange compulsion to send free books to Norwegians; and the fevered insistence of BizDev higher-ups that the perfect business partner was Pets.com -- the now-extinct company that spent all its assets on a sock puppet. In these pages, you'll meet Warren, the cowboy of customer service, capable of verbally hog-tying even the most abusive customer; Amazon employee #5, a reclusive computer gamer worth a cool \$300 million, who spends at least six hours a day locked in his office killing goblins; and Jean-Michele, Mike's girlfriend and sparring partner, who tries to keep him grounded, even as dot-com mania seduces them both. At strategic intervals, the narrative is punctuated by hysterically honest letters to CEO Jeff Bezos -- missives that seem ripped from the collective unconscious of dot-com disciples the world over. 21 Dog Years is an epic story of greed, self-deception, and heartbreak, a wickedly funny anthem to an era of bounteous stock options and boundless insanity.

The author describes some of the dogs that have had special places in his life, including his first dog, Snowball, in the Philippines; Dirk, who protected him from bullies; and Cookie, who saved his life.

From bestselling author of *She's Not There*, New York Times opinion columnist, and human rights activist Jennifer Finney Boylan, *Good Boy: My Life in Seven Dogs*, a memoir of the transformative power of loving dogs. This is a book about dogs: the love we have for them, and the way that love helps us understand the people we have been. It's in the love of dogs, and my love for them, that I can best now take the measure of the child I once was, and the bottomless, unfathomable desires that once haunted me. There are times when it is hard for me to fully remember that love, which was once so fragile, and so fierce. Sometimes it seems to fade before me, like breath on a mirror. But I remember the dogs. In her New York Times opinion column, Jennifer Finney Boylan wrote about her relationship with her beloved dog Indigo, and her wise, funny, heartbreaking piece went viral. In *Good Boy*, Boylan explores what should be the simplest topic in the world, but never is: finding and giving love. *Good Boy* is a universal account of a remarkable story: showing how a young boy became a middle-aged woman—accompanied at seven crucial moments of growth and transformation by seven memorable dogs. “Everything I know about love,” she writes, “I learned from dogs.” Their love enables us to pull off what seem like impossible feats: to find our way home when we are lost, to live our lives with humor and courage, and above all, to best become our true selves.
