Completely revised new editions of the market-leading Physics textbooks for HL and SL, written for the new 2014 Science IB Diploma curriculum. Now with an accompanying four-year student access to an enhanced eText, containing simulations, animations, quizzes, worked solutions, videos and much more. The enhanced eText is also available to buy separately and works on desktops and tablets. Follows the organizational structure of the new Physics guide, with a focus on the Essential Ideas, Understanding, Applications & Skills for complete syllabus-matching. Written by a highly experienced IB author, Chris Hamper, you can be confident that you and your students have all the resources you will need for the new Physics curriculum. Features: Nature of Science and TOK boxes throughout the text ensure an embedding of these core considerations and promote concept-based learning. Applications of the subject through everyday examples are described in utilization boxes, as well as brief descriptions of related industries, to help highlight the relevance and context of what is being learned. Differentiation is offered in the Challenge Yourself exercises and activities, along with guidance and support for laboratory work on the page and online. Exam-style assessment opportunities are provided from real past papers, along with hints for success in the exams, and guidance on avoiding common pitfalls. Clear links are made to the Learner profile and the IB core values. Table of Contents: Measurements and Uncertainties Mechanics Thermal Physics Oscillations and Waves Electricity and Magnetism Circular Motion and Gravitation Atomic, Nuclear, and Particle Physics Energy Production Wave Phenomena Fields Electromagnetic Induction Quantum and Nuclear Physics Option A: Relativity Option B: Engineering Physics Option C: Imaging Option D: Astrophysics

Provides complete coverage of the syllabus requirements. This book offers information on Physics for IB Diploma course.

Developed for the 2007 course outline. This study guide for the IB Diploma Physics exam was expertly written by a chief examiner and covers all the Core and Optional materials at both Standard and Higher level. Highly illustrated, this guide contains clear, concise review of processes, terms and concepts, with practice exercises modeled on exam question types. This guide is perfect as both a study aide for coursework and as a review guide for the IB examination.
