The way a planet is tilted on its rotational axis with respect to its orbital plane around a star - what we know as 'axial tilt' - could be key to the emergence of complex life.

This One Planetary Feature May Be Crucial For The Rise of Complex Life in The Universe

Planets which are tilted on their axis, like Earth, are more capable of evolving complex life. This finding will help scientists refine the search for more advanced life on exoplanets. This ...

Goldilocks Planets "With a Tilt" Like Earth Are More Capable of Evolving Complex Life

Intelligent aliens are most likely to be found on planets with an Earth-like tilt, according to new research. Such planets could have twice as much of the nutrients capable of evolving complex ...

Intelligent aliens most likely to be found on planets with 'Earth-like tilt'

Planets which are tilted on their axis, like Earth, are more capable of evolving complex life. This finding will help scientists refine the search for more advanced life on exoplanets. This ...

Goldilocks planets 'with a tilt' may develop more complex life

The tragic shape is caused by a massive nearby white dwarf distorting the star with its intense gravity, which will also be the catalyst for an eventual supernova that will consume both. Found by an ...

Teardrop Star Reveals Hidden Supernova Doom

After baffling researchers for decades, new readings from NASA and the ESA have revealed the cause of the chaos at Jupiter's auroras.

How Jupiter's 'surfing' ions make a spectacular light show

Prof Christopher E Mason has been studying astronaut Scott Kelly's reactions to life in space and reveals how we might adapt to overcome the challenges we face.

Biological space race: NASA doctor reveals the future of genetically edited astronauts

MRInsightsbiz revealed a new market research study on Global Industrial Earth Leakage Protection Market Growth 2021-2026 pro ...

Global Industrial Earth Leakage Protection Market 2021 Future Growth, Key Players Analysis, Regional Analysis, and Industry Forecast to 2026

Less pigmentation keeps them cool, but could make it difficult to find a mate. A study in the Proceedings of the National Academy of Sciences led by Michael Moore at Washington University in St. Louis ...

Male Dragonflies Lose Their "Bling" in Hotter Climates \u2014 May Make It Difficult to Find a Mate

A study led by Michael Moore at Washington University in St. Louis found that dragonfly males have consistently evolved less breeding colouration in regions with hotter climates.

Study finds male dragonflies lose their 'bling' in hotter climates

A study led by Michael Moore at Washington University in St Louis found that dragonfly males have consistently evolved less breeding colouration in regions wit ...

Dragonflies lose their 'bling' in heat

the study titled 'A Globally Fragmented and Mobile Lithosphere on Venus' revealed. Though different from the Earth's current plate tectonics, it means that there exist heat currents and molten ...

Venus has more similarities with Earth than previously known, tectonic activity in 'twin planet' reveals

Rockets are our species' best way of escaping the atmosphere of Earth and reaching space ... The first person to seriously study the rocket's potential for space travel, Russian schoolteacher ...

How rockets work: A complete guide

It passed 7.1 million miles from Earth which is the closest pass it had made to the Earth in centuries. While 46P/Wirtanen has been gone for years, study into the comet has continued. Recently ...

Study reveals secrets of comet 46P/Wirtanen

Luxurious Range of Hair masks by The Earth Collective Treat your father ... fathers helps newborns after cesarean delivery, revealed a new study.

Father's Day 2021: New Gifting Guide Revealed

Early Earth had ... this work reveals how key factors, including a planet's seasonality, could increase or decrease the possibility of finding oxygen derived from life outside our solar system. These ...

Goldilocks planets 'with a tilt' may develop more complex life

A study led by Michael Moore at ... who is a postdoctoral fellow with the Living Earth Collaborative at Washington University. "This work reveals that mating-related traits can be just as ...
