How to make a 2-stroke scooter go faster

The way a two stroke motor works causes them to be fairly noisy and a bit inefficient. A tuned pipe has a set of cones- Divergent (meaning the cone gets bigger) and Convergent (meaning the cone gets smaller) that are built to cause "echoes" or

Tuning A 2 Stroke
Scooter Engine

However, two stroke
engines generally make
quite a bit more power
because they have twice
as many power strokes.

A 2-stroke engine at
8000 RPM will be

Bookmark File

PDF Tuning A 2

“exploding” the air/fuel mix twice as often as a 4-stroke that is also at 8000 RPM.

Accordingly, if a 2-stroke engine was as efficient as a 4-stroke, it would make twice the power.
