troubleshooting~~

The Amada press brake safety
Illustrations below are a
good visual guideline for
the safe operation of
Promecam Machines. Use
pliers or any other tooling
to help bend small dimension
or small width parts. Never
place your fingers near the
punches.

The Operateur is a CNC control that was totally developed by Amada - Promecam. It controls all aspects of the HFB press brake yet it is simple to use and it is aesthetically and ergonomically designed. This control includes an integrated maintenance program that can be accessed from the PC through a DNC cable.
