Original investigation of courtship in Elizabethan love poetry by male and newly discovered female writers.

During the past two decades, the study of sexuality and gender in music has become a decidedly mainstream activity. To be sure, music has long been obviously and intimately involved in matters pertaining to relations, both sexual and otherwise, between and amongst the sexes. Its use in courtship is the one that perhaps first comes to mind, this use being probably as old as music itself. This book contains all the papers presented at the conference by the same name.

This dictionary aims to help users to find the most appropriate word to use on a wide range of occasions. It is designed in particular for students, those writing reports, letters and speeches, and crossword solvers, but is also useful as a general word reference. Special features include: an alphabetical A-Z listing; numbered senses for words with more than one meaning; British and American variants; and specially marked colloquial uses.
